DETAILED ACTION

This office action was made in response to an amendment filed by Applicant on 8/27/2009.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1,8,10, and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Takimoto et al (7,182,365). Figs. 17 and 18 of Takimoto et al disclose a knee airbag apparatus comprising an airbag 66; an inflator for supplying gas to the airbag 66; and a non-inflatable airbag support 69 that is directly attached to an instrument panel side portion 67 of the airbag and that expands upon deployment with the airbag from a

folded stage. The non-inflatable airbag support 69 is disposed between the airbag and the instrument panel of the vehicle and thus provides a barrier therebetween. With regard to claim 8, the stitching of the support acts as an expansion guide causing the support to deploy with the airbag. With regard to claim 10, the stitch sewing the support to the airbag is considered to help form the airbag in that the support is considered an outside part of the airbag.

Allowable Subject Matter

3. Claims 3-7,9,11-14, and 16-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 2-28 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3616

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
